

Louisville Presbyterian Theological Seminary
UPCOMING LIFELONG LEARNING EVENT
Emotional Intelligence and Human Relations Laboratory
July 21 to 25, 2008

Course Description: This is an intensive and highly experiential one-week course, with the major amount of time being spent in a small groups of 10 to 14 people with two experienced trainers in each group. As group life unfolds, participants are offered feedback on the impact they have on others in the group. Participants will learn both inter-personal and Intra-group communication skills. The content of the course will focus on the four areas of emotional intelligence as keys to improving leadership effectiveness for church leaders.

As part of this workshop participants will be asked to complete a comprehensive survey on emotional intelligence. They will also be asked to identify up to 20 people who know them well and who would be willing to complete the same survey on them. What results is a 35 page printout of one's EQ. This will be for the participants eyes only and will provide possible personal items to be explored in one's small group. Past participants have described this workshop as a life changing event in their lives.

Should you desire more information on emotional intelligence, drop Roy a note and you will be sent a simple description of EQ and an HBR article by Daniel Goleman, author of four books on EQ.

The following is an overview of the four general areas of emotional intelligence and the 20 human abilities that make up one's EQ.

The Competency Framework

One does not need to be competent in all 20 of these abilities as certain clusters of strengths can still result in effective work. It should be obvious that anyone who increases their

capacity in these abilities will be more successful in any human endeavor, but particularly in the ordained ministry which is a highly relational calling.
