Georgia Flooding September 2009

PRESBYTERIAN DISASTER ASSISTANCE

Torrential rains falling on already saturated soil caused flooding in the southeastern United States in September. In Georgia, more than 3,000 homes in 18 counties were damaged. Several presbyteries in the Synod of the South Atlantic were affected.

PDA National Response Team members are supporting the work of the presbyteries as they organize their response for local communities. Response includes offering emergency shelter for people and pets, and distribution of Gift of the Heart kits, including clean up buckets, hygiene kits, and school kits.

We will continue to post news and information as the recovery gets under way and the rescue efforts continue.

How Can We Respond?
