Please list any other cultural or religious practices or personal needs that you wish your hosts to be aware of:
I do not drink tea/coffee/herbal tea; I prefer milk or fruit juice as substitute for the same. I do not drink or smoke and while I do not mind those who do so, I would be comfortable if those who smoke do not do so in my presence. I do some workouts each morning to get my body ready for the day and would be glad if that can be allowed usually 30-45 mins after waking up followed by short meditation. I do not have pets of my own and while I do not mind pets I do not have time for them therefore my hosts should be prepared for my liking or disliking of their pets. Strangely cats are fond of me that has been my experience abroad but I keep my distance in fear of upsetting them or failing to give back the affection they are used to.
