

Special Loan Rates for Accessibility Projects

The Church Loan Program of the General Assembly provides low interest, “incentive” loans to congregations for capital projects aimed at improving accessibility. The loans cover modifications to improve access to both the physical and hearing impaired.

Loans for qualifying projects can be up to \$30,000 at an interest rate of 5% and financed for up to 15 years. Incentive loans are intended to fund projects whose primary purpose is to enhance accessibility. They cannot be used in conjunction with regular construction, renovation or facility purchase loans.

For more information on incentive loans as well as low cost loans for expansions, renovations and site purchase, call the Presbyterian Church (USA) Investment & Loan Program, Inc. at (800) 903-7457 and ask for Ben Blake (Ext. 5865).
