

**DRAFT      DRAFT      DRAFT**

**RELIGIOUS ORGANIZATIONS OPPOSE BOEHNER AMENDMENT TO STRIP CIVIL RIGHTS PROTECTIONS FROM HEAD START**

Dear Representative:

We, the undersigned religious **and religiously affiliated** organizations, write to urge you to oppose the planned Boehner religious discrimination amendment to the School Readiness Act (H.R. 2123), the bill reauthorizing the Head Start program. The bill approved 48-0 by the House Committee on Education and the Workforce that reaches the House floor is the product of many months of hard work resulting in a strong bipartisan agreement. It maintains critical civil rights protections in Head Start, preventing religious discrimination in federally funded Head Start positions. Any attempts to amend the bill and repeal these protections threaten not only the bipartisan spirit of the bill, but the integrity of the Head Start program itself. We represent a diverse array of religions, covering the political and ideological spectrum. We stand united to oppose this unwarranted attack on a vital civil rights provision that protects over 1.6 million teachers and parent volunteers from having to choose between their religion and their participation in the local Head Start program.

The bipartisan bill that passed unanimously out of the Committee on Education and the Workforce has the potential to garner support from a broad range of groups, including all of the religious groups on this letter. As religious institutions, we support preserving the autonomy of religious organizations with respect to hiring decisions made in privately funded programs. **However, we also recognize the importance of ensuring that taxpayer dollars do not fund positions connected with the operation of the program itself where candidates may be disqualified because of the religion they practice.** The longstanding nondiscrimination provision included in Head Start legislation since 1981 strikes the appropriate balance between religious autonomy and nondiscrimination. For over two decades, religious organizations have enthusiastically and effectively participated in the program while upholding constitutional and civil rights standards. We are not aware of any call by these religious based Head Start programs for congressional authority to begin to discriminate on the basis of religion in this government-funded program.

As religious **and religiously affiliated** organizations, we strive to make the world a better place for the next generation and generations to follow. The Head Start program is an extremely successful government funded means of achieving this goal, providing opportunities for nearly one million at-risk children each year. We urge you to oppose any effort, such as Rep. Boehner's planned floor amendment, to change this crucial program by stripping its civil rights protections and allowing providers to discriminate on religious grounds.

Thank you for your consideration of this important matter.

Respectfully,
